Writing a Project Description

In writing a project description for the Application , please provide enough information for evaluators to understand:

- Your organization and its relationship to the proposed project
- Who will be involved in the project, their roles and their qualifications/credentials
- The nature and significance of the project –What is it? When will it be held? How long will it last? Where will it take place?
- How the proposed project supports the mission of the Curtis H. Sykes grant program
- What is the potential audience for this project (e.g., scholars, genealogists, P-12, general public)? How do you plan to reach them?
- Plan for publicizing your project and the grant, if awarded
- What material will be collected/deposited at the Arkansas State Archives

Developing a Project Budget

General requirements:

- ▶ Maximum grant award is \$3500
- ▶ Program does not require any matching funds, but applicants are encouraged to show additional sources of support on the budget summary form
 - ▶ Additional sources of support may be:
 - ▶ Cash from the applicant's own funds or from a third party
 - ▶ In-kind contributions estimated at the dollar value of services, goods, or space contributed by the applicant or third party and directly associated with the project
- ▶ Grant awards are for one (1) year of funding – grant recipients are expected to complete projects within one year the date of award, which will be established in the grant contract
- ▶ Grant recipients are encouraged to designate a fiscal officer to authorize expenses and receive funds and who is separate from the Project Director

Writing a Budget Justification

- Budget justification is a **narrative description** of your Budget Summary Form.
- Should be **organized like the Budget Summary Form** (1, 2, 3, 4, etc...)
- If your Budget Summary Form contains a value in any column, there should be a corresponding explanation for that value on your budget justification.
- Justifications should provide **adequate detail** to show that the project costs are reasonable and directly related to project activities.
- Grant applications that do not include a budget justification will not be considered for funding.
- Grant applications that include budget justifications that are unclear or contain an insufficient amount of information on which to make a determine, will be returned to the grant applicant for revision and may result in a delay in your grant being considered for funding.

Sample Application

1. Title of Project.
"I've Been Working on the Railroad" Oral History Project

2. Sykes grant request.
\$ 3,146.82

3. Total project cost.
\$ 9,646.82

4. Name, address, and telephone number of applicant organization

Conway County Historical Preservation Assoc., PO Box 417, Morrilton, AR 72110

Sample Project Narrative

“In 2015, in the process of celebrating the 100th anniversary of the Morrilton Depot building, the Depot Volunteers discovered that there was very little coverage of the **black history of Conway County in the museum collections**. There was zero history about the **black railroad workers**. **The worker history is important because, at a time when local jobs for black were scarce, the railroads provided good opportunities for employment**. Many black men took advantage of this fact.

It is the museum's plan to collect **oral histories from workers and family members** to document this employment history, as well as document the lives and times and of the families and communities affected. **Written narratives will be accepted** and a **photographer and scanner will be on hand for the interviews to further document** the information gathered, and individuals present.

If we are granted, we propose a **February 16, 2016**, Kick Off to start oral interviews, **research and compilation of data from historical societies, the Arkansas State Archives, the Butler Center, as well as additional information from Faulkner and Pope Counties**. The theme will be “I've Been working on the Railroad,” with a **reception** on Saturday, February 18, 2016.

Publicity for this project has already started and will include using avenues of the local newspaper, radio cable TV, several community newsletters, personal requests, and invitations, as well as word of mouth.

Edited DVD's, raw film footage, photographs, and all printed material will be sent to the commission along with **copies of release forms.**"
